

# Harmony Asian Balanced Fund (Class D)

30 June 2025

This is a marketing communication for professional advisors only

## Investment objective\*

The portfolio will be biased to investments in markets of developed Asian and emerging Asian countries, but could also hold investments outside these countries.

The portfolio aims to provide a balance between capital preservation and capital growth with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

## Manager commentary

» Global financial markets staged a broad rally in June, with equity indices across the world reaching new highs as investors welcomed signs of easing trade tensions and grew increasingly confident of impending interest rate cuts from the US Federal Reserve. A mid-month ceasefire between Israel and Iran also contributed to a more positive risk sentiment, though it sparked volatility in oil markets throughout the month. Global bonds were modestly positive, supported by a flight to safety during what was a volatile month. The US dollar kept weakening, which was particularly supportive for emerging market equities and bonds.

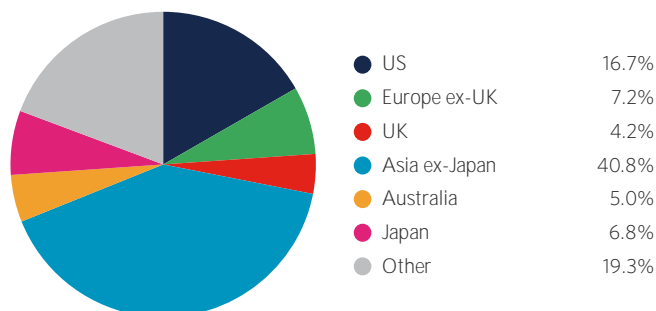

» Against this backdrop, we exited our allocation to MSCI World Minimum Volatility equity futures and reinvested that capital by increasing exposure to the Candriam Global High Yield strategy. The two investments are somewhat comparable, the former on the lower end of the equity risk spectrum, the latter on the higher end of corporate fixed income risk spectrum. Equities have performed strongly since the depth of the tariff crash and current valuations are looking somewhat fragile, so we thought it prudent to move towards a higher quality, lower volatility exposure such as Candriam's portfolio.

## Deferred Subscription Charge - Class D only

The Fund is permitted to make a charge on the sale of Shares to an investor of 5 per cent of the amount subscribed. The amount of this charge is paid by the Fund at the time of the subscription and is deferred and amortised over a 5-year period. Shareholders of Share Class D see the cost of this charge reflected in a decreased Net Asset Value price of Share Class D.

Should an investor redeem before the 5-year period has elapsed, the Fund is permitted to deduct the remainder of the Deferred Subscription Charge from the redemption proceeds for the benefit of the relevant Fund. The remaining charge will be calculated on a first in, first out basis and pro-rata dependent upon the number of Shares redeemed.

Charges will be applied to the redemption proceeds as below:

» Within one year of initial subscription	5%
» Between 1 & 2 years of initial subscription	4%
» Between 2 & 3 years of initial subscription	3%
» Between 3 & 4 years of initial subscription	2%
» Between 4 & 5 years of initial subscription	1%
» After 5 years of initial subscription	No charge

At the end of the month following the five-year anniversary of the original subscription, once the initial charge is repaid in full to the Fund, any remaining shareholding will be automatically converted to Share Class A.

Please refer to the Deferred Subscription Charge section of the prospectus for further details.
