

Harmony Asian Growth Fund (Class D)

27 February 2026

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in markets of developed Asian and emerging Asian countries, but could also hold investments outside these countries.

The portfolio aims to provide capital growth but with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Manager commentary

- » February was a challenging month for global equities, as growing concerns around AI-driven disruption weighed heavily on technology and software stocks, sending the S&P 500 down 0.8% and the Nasdaq lower by 3.4%. The Federal Reserve held rates steady at 3.50-3.75%, while the 10-year Treasury yield fell roughly 30 basis points on a flight-to-safety bid. The US Supreme Court struck down IEEPA-based tariffs, though the White House swiftly reimposed levies under alternative legislation, keeping trade uncertainty elevated. International equities continued to outperform the US, with the MSCI World ex-US extending its strong year-to-date lead. Precious metals were volatile, with gold recovering above \$5,000 per ounce on safe-haven demand as US-Iran tensions escalated sharply towards month-end, while oil prices rose on fears of disruption to Strait of Hormuz shipping lanes.
- » Against this backdrop, we left manager selection and asset allocation unchanged in February; however, we prepared for significant changes executed in the early days of March.

Deferred Subscription Charge - Class D only

The Fund is permitted to make a charge on the sale of Shares to an investor of 5 per cent of the amount subscribed. The amount of this charge is paid by the Fund at the time of the subscription and is deferred and amortised over a 5-year period. Shareholders of Share Class D see the cost of this charge reflected in a decreased Net Asset Value price of Share Class D.

Should an investor redeem before the 5-year period has elapsed, the Fund is permitted to deduct the remainder of the Deferred Subscription Charge from the redemption proceeds for the benefit of the relevant Fund. The remaining charge will be calculated on a first in, first out basis and pro-rata dependent upon the number of Shares redeemed.

Charges will be applied to the redemption proceeds as below:

» Within one year of initial subscription	5%
» Between 1 & 2 years of initial subscription	4%
» Between 2 & 3 years of initial subscription	3%
» Between 3 & 4 years of initial subscription	2%
» Between 4 & 5 years of initial subscription	1%
» After 5 years of initial subscription	No charge

At the end of the month following the five-year anniversary of the original subscription, once the initial charge is repaid in full to the Fund, any remaining shareholding will be automatically converted to Share Class A.

Please refer to the Deferred Subscription Charge section of the prospectus for further details.
