

# Harmony Asian Growth Fund (Class E)

27 February 2026

This is a marketing communication for professional advisors only

## Investment objective\*

The portfolio will be biased to investments in markets of developed Asian and emerging Asian countries, but could also hold investments outside these countries.

The portfolio aims to provide capital growth but with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

## Manager commentary

- February was a challenging month for global equities, as growing concerns around AI-driven disruption weighed heavily on technology and software stocks, sending the S&P 500 down 0.8% and the Nasdaq lower by 3.4%. The Federal Reserve held rates steady at 3.50-3.75%, while the 10-year Treasury yield fell roughly 30 basis points on a flight-to-safety bid. The US Supreme Court struck down IEEPA-based tariffs, though the White House swiftly reimposed levies under alternative legislation, keeping trade uncertainty elevated. International equities continued to outperform the US, with the MSCI World ex-US extending its strong year-to-date lead. Precious metals were volatile, with gold recovering above \$5,000 per ounce on safe-haven demand as US-Iran tensions escalated sharply towards month-end, while oil prices rose on fears of disruption to Strait of Hormuz shipping lanes.
- Against this backdrop, we left manager selection and asset allocation unchanged in February; however, we prepared for significant changes executed in the early days of March.

## Cumulative returns (since inception, 06.08.2012)

Important Information - All data sourced from Momentum Global Investment Management, J.P. Morgan SE - Luxembourg Branch, Morningstar, Bloomberg Finance L.P. Allocations subject to change. \*There can be no assurance that the Fund will achieve its investment objective. Please refer to the Prospectus for full details of the Fund, its charges, the investment objective and investment policy. \*\*Peer group median comprises two components: 1) between inception date and 30.06.24, the median return of the composite (i) global peers and (ii) local peers, in the ratio 1:2. This weighting methodology is consistent with the "normal" asset allocation of the Fund, with a two-thirds bias towards "home" country assets and currencies; 2) between 01.07.24 to present, following the Strategic Asset Allocation changes, the median return of Morningstar EAA Asia Allocation. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees.
