

Harmony Asian Growth Fund (Class E)

29 May 2026

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in markets of developed Asian and emerging Asian countries, but could also hold investments outside these countries.

The portfolio aims to provide capital growth but with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Manager commentary

- » Global financial markets advanced dynamically in May 2026, building on April's powerful rebound. A dual narrative shaped the month: persistent artificial intelligence (AI) infrastructure demand drove tech-heavy equity benchmarks to new all-time highs, while sovereign bonds and commodities experienced intense mid-month volatility tied to shifting geopolitical risks in the Middle East. As optimism grew late in the month regarding a potential US-Iran agreement to reopen the closed Strait of Hormuz, crude oil prices sharply retraced from their highs, allowing fixed-income yields to pull back into month-end.
- » Against this backdrop, we made no manager selection or asset allocation changes to the portfolio.
