

Harmony Australian Dollar Growth Fund (Class D)

29 November 2024

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in Australia, but could also hold investments outside this country.

The portfolio aims to provide capital growth in Australian dollars but with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Private equity	1.5%		
Property	0.7%		
Specialist financials	0.2%		

Manager commentary

- » In November, US markets significantly outperformed the rest of the world, with the S&P 500 reaching a new record high and delivering its strongest monthly performance of 2024. European sovereign bonds also fared well as investors anticipated accelerated rate cuts from the ECB. However, there were some areas of weakness. French assets lagged due to concerns over the country's budget, while the Euro experienced its sharpest decline against the US dollar in 18 months, driven by speculation about potential new tariffs. Additionally, the dollar's strength, coupled with broader weakness in other regions, led to negative returns for nearly all non-USD denominated risk assets in USD terms during the month.
- » Against this backdrop, we left asset allocation and manager selection unchanged.

*Important Information - All data sourced from Momentum Global Investment Management, J.P. Morgan SE - Luxembourg Branch, Bloomberg Finance L.P. Allocations subject to change. *There can be no assurance that the Fund will achieve its investment objective. Please refer to the Prospectus for full details of the Fund, its charges, the investment objective and investment policy. **Performance figures comprise two components: i) figures reflect Class D share's returns for the first 5 years after Class D share's inception; ii) Class A share's returns are taken thereafter, to present. Please refer to the Fees and Expenses, Deferred Subscription Charge - Class D section of the Prospectus regarding the conversion to Class A following the five year anniversary of the original subscription into Class D. Past performance is not a guide to future performance.*

Deferred Subscription Charge - Class D only

The Fund is permitted to make a charge on the sale of Shares to an investor of 5 per cent of the amount subscribed. The amount of this charge is paid by the Fund at the time of the subscription and is deferred and amortised over a 5-year period. Shareholders of Share Class D see the cost of this charge reflected in a decreased Net Asset Value price of Share Class D.

Should an investor redeem before the 5-year period has elapsed, the Fund is permitted to deduct the remainder of the Deferred Subscription Charge from the redemption proceeds for the benefit of the relevant Fund. The remaining charge will be calculated on a first in, first out basis and pro-rata dependent upon the number of Shares redeemed.

Charges will be applied to the redemption proceeds as below:

» Within one year of initial subscription	5%
» Between 1 & 2 years of initial subscription	4%
» Between 2 & 3 years of initial subscription	3%
» Between 3 & 4 years of initial subscription	2%
» Between 4 & 5 years of initial subscription	1%
» After 5 years of initial subscription	No charge

At the end of the month following the five-year anniversary of the original subscription, once the initial charge is repaid in full to the Fund, any remaining shareholding will be automatically converted to Share Class A.

Please refer to the Deferred Subscription Charge section of the prospectus for further details.

Important Information - All data sourced from Momentum Global Investment Management, J.P. Morgan SE - Luxembourg Branch, Bloomberg Finance L.P. Allocations subject to change. The value of the underlying funds and the income generated from them can go down as well as up and is not guaranteed. Investors may not get back the original amount invested. The value of investments involving exposure to foreign currencies can be affected by currency exchange rate fluctuations. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees. The Fund is not managed with reference to a benchmark, but its performance may be measured against one. Portfolio holdings include indirect holdings in Momentum GF Global Equity Fund.
