Harmony Australian Dollar Growth Fund (Class J)

28 November 2025

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in Australia, but could also hold investments outside this country.

The portfolio aims to provide capital growth in Australian dollars but with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Loans	1.1%
Commodities	**2.1%**
Precious metals	2.1%
Cash & equivalents	**1.5%**

Manager commentary

» In November, we broadly maintained the portfolio's overall risk allocation, but reallocated away from the riskier segments (at valuation and economic risk) into more resilient exposures, which we view as appropriate at this late stage of the cycle. So, favouring high-quality, defensive active equity managers over the rest, we added the MSCI World Minimum Volatility futures and increased allocation to Aikya Global Emerging Markets, taking from passive equity investments that are heavily concentrated and trading at elevated valuations.

» We have also reduced allocation to convertible bonds, highly correlated to equities, an in particular to growth stocks. Convertibles were introduced tactically a year ago as a targeted way to add US and technology exposure, where we were otherwise underweight. Their convex profile allowed us to participate in further US/tech upside with reduced downside and they have delivered what we bought them for: cushioning the April drawdown while capturing almost all of the subsequent upside. However, given their recent near-delta-one participation in market gains, the likelihood of similarly high-beta participation in any future drawdowns has increased, which argues for a more cautious stance.

Important Information - All data sourced from Momentum Global Investment Management, J.P. Morgan SE - Luxembourg Branch. Allocations subject to change. *There can be no assurance that the Fund will achieve its investment objective. Please refer to the Prospectus for full details of the Fund, its charges, the investment objective and investment policy. **Performance figures, prior to the Inception date of the Class J share and where the Class J share is not active, have have been simulated to reflect its lower fees by adjusting the Harmony Australian Dollar Growth Fund Class A share's past performance. The simulated performance is based on the performance of the longest track record share class since the fund launch. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees.
