

Harmony Australian Dollar Growth Fund (Class D)

31 October 2024

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in Australia, but could also hold investments outside this country.

The portfolio aims to provide capital growth in Australian dollars but with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Manager commentary

- » In October, the most significant shift was a big rise in bond yields, reversing much of the move in Q3, which meant that bonds had a poor month, in turn weighing on valuations across most asset classes (with the notable exception of gold). Against this backdrop, trading activity was significant in October.
- » We added the Candriam Global High Yield fund, a strategy focused on the higher quality, less cyclical and more sustainable parts of the high yield fixed income universe which, coupled with falling inflation, easier monetary policy and a supportive macroeconomic environment, should deliver strong risk-adjusted returns.
- » Early in the month, we reduced the portfolio's duration by taking profits on some of the US Treasury allocation, which proved timely as bonds kept falling over the subsequent weeks.
- » We exited the First Sentier Japan Focus fund, as the fund is closing and the investment team leaving, and reinvested the proceeds in the Amundi Japan ETF, to keep unchanged our exposure to a market we are tactically positive on.
- » Finally, we took profits on some of our China allocation. After an incredible rally in late September and a consolidation in early October, we thought it prudent to monetize some and reinvest in other areas that had instead been left behind. We remain overweight China though, conscious that the stimuli and the commitment to the stock market we have seen from the Party and the central bank will provide long-term tailwind to the market.

Deferred Subscription Charge - Class D only

The Fund is permitted to make a charge on the sale of Shares to an investor of 5 per cent of the amount subscribed. The amount of this charge is paid by the Fund at the time of the subscription and is deferred and amortised over a 5-year period. Shareholders of Share Class D see the cost of this charge reflected in a decreased Net Asset Value price of Share Class D.

Should an investor redeem before the 5-year period has elapsed, the Fund is permitted to deduct the remainder of the Deferred Subscription Charge from the redemption proceeds for the benefit of the relevant Fund. The remaining charge will be calculated on a first in, first out basis and pro-rata dependent upon the number of Shares redeemed.

Charges will be applied to the redemption proceeds as below:

» Within one year of initial subscription	5%
» Between 1 & 2 years of initial subscription	4%
» Between 2 & 3 years of initial subscription	3%
» Between 3 & 4 years of initial subscription	2%
» Between 4 & 5 years of initial subscription	1%
» After 5 years of initial subscription	No charge

At the end of the month following the five-year anniversary of the original subscription, once the initial charge is repaid in full to the Fund, any remaining shareholding will be automatically converted to Share Class A.

Please refer to the Deferred Subscription Charge section of the prospectus for further details.
