

# Harmony Cautious Income Fund (Class E AUD hedged Acc)

29 May 2026

This is a marketing communication for professional advisors only

## Investment objective\*

The portfolio aims to deliver a stable level of income of 3-4% per annum whilst still maintaining the capital value, via strategic exposures to a wide range of global asset classes.

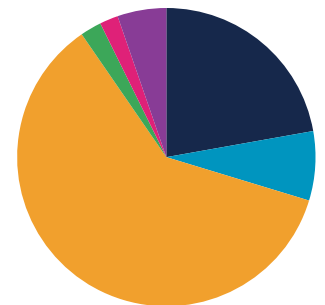

## Manager commentary

- » Global financial markets advanced dynamically in May 2026, building on April's powerful rebound. A dual narrative shaped the month: persistent artificial intelligence (AI) infrastructure demand drove tech-heavy equity benchmarks to new all-time highs, while sovereign bonds and commodities experienced intense mid-month volatility tied to shifting geopolitical risks in the Middle East. As optimism grew late in the month regarding a potential US-Iran agreement to reopen the closed Strait of Hormuz, crude oil prices sharply retraced from their highs, allowing fixed-income yields to pull back into month-end.
- » Against this backdrop, we made no manager selection or asset allocation changes to the portfolio.
