Manager commentary

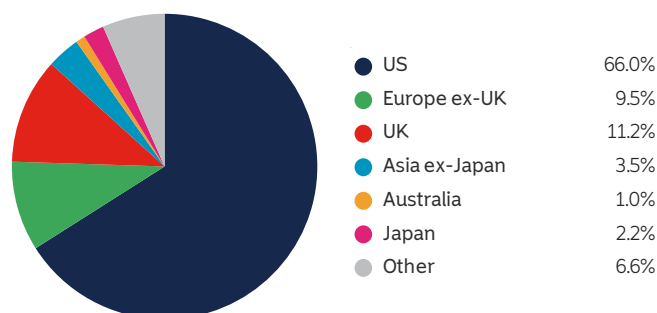

- » In November, we broadly maintained the portfolio's overall risk allocation, but reallocated away from the riskier segments (at valuation and economic risk) into more resilient exposures, which we view as appropriate at this late stage of the cycle. So, favouring high-quality, defensive active equity managers over the rest, we added the MSCI World Minimum Volatility futures and increased allocation to Aikya Global Emerging Markets, taking from passive equity investments that are heavily concentrated and trading at elevated valuations.
- » We have also reduced allocation to convertible bonds, highly correlated to equities, in particular to growth stocks. Convertibles were introduced tactically a year ago as a targeted way to add US and technology exposure, where we were otherwise underweight. Their convex profile allowed us to participate in further US/tech upside with reduced downside and they have delivered what we bought them for: cushioning the April drawdown while capturing almost all of the subsequent upside. However, given their recent near-delta-one participation in market gains, the likelihood of similarly high-beta participation in any future drawdowns has increased, which argues for a more cautious stance.

Deferred Subscription Charge - Class D only

The Fund is permitted to make a charge on the sale of Shares to an investor of 5 per cent of the amount subscribed. The amount of this charge is paid by the Fund at the time of the subscription and is deferred and amortised over a 5-year period. Shareholders of Share Class D see the cost of this charge reflected in a decreased Net Asset Value price of Share Class D.

Should an investor redeem before the 5-year period has elapsed, the Fund is permitted to deduct the remainder of the Deferred Subscription Charge from the redemption proceeds for the benefit of the relevant Fund. The remaining charge will be calculated on a first in, first out basis and pro-rata dependent upon the number of Shares redeemed.

Charges will be applied to the redemption proceeds as below:

» Within one year of initial subscription	5%
» Between 1 & 2 years of initial subscription	4%
» Between 2 & 3 years of initial subscription	3%
» Between 3 & 4 years of initial subscription	2%
» Between 4 & 5 years of initial subscription	1%
» After 5 years of initial subscription	No charge

At the end of the month following the five-year anniversary of the original subscription, once the initial charge is repaid in full to the Fund, any remaining shareholding will be automatically converted to Share Class A.

Please refer to the Deferred Subscription Charge section of the prospectus for further details.
