## Manager commentary

- » In early January, President Trump ordered US strikes in Venezuela that led to Nicolás Maduro's capture and a sudden break in Bolivarian rule—big headlines but limited market impact given Venezuela's small share of global oil output. Attention then shifted to escalating tensions in Iran amid reports of mass protest deaths, alongside domestic backlash after two Minneapolis protesters were killed by ICE patrols. The US also built up forces in the Persian Gulf and clashed diplomatically with Denmark over Greenland, though Trump later appeared to rule out military action at Davos. Markets largely “looked through” this geopolitical noise, focusing on strong US earnings, a steady Fed, and a rally broadening toward small caps (Russell 2000 up ~5% vs “Magnificent Seven” slightly down). Asia and emerging market equities rose, bonds were modest, and gold/silver surged on a “debasement” narrative signalling lingering, underpriced risk and some investor complacency.
- » Against this backdrop, we left manager selection and asset allocation unchanged.

## Deferred Subscription Charge - Class D only

The Fund is permitted to make a charge on the sale of Shares to an investor of 5 per cent of the amount subscribed. The amount of this charge is paid by the Fund at the time of the subscription and is deferred and amortised over a 5-year period. Shareholders of Share Class D see the cost of this charge reflected in a decreased Net Asset Value price of Share Class D.

Should an investor redeem before the 5-year period has elapsed, the Fund is permitted to deduct the remainder of the Deferred Subscription Charge from the redemption proceeds for the benefit of the relevant Fund. The remaining charge will be calculated on a first in, first out basis and pro-rata dependent upon the number of Shares redeemed.

Charges will be applied to the redemption proceeds as below:

» Within one year of initial subscription	5%
» Between 1 & 2 years of initial subscription	4%
» Between 2 & 3 years of initial subscription	3%
» Between 3 & 4 years of initial subscription	2%
» Between 4 & 5 years of initial subscription	1%
» After 5 years of initial subscription	No charge

At the end of the month following the five-year anniversary of the original subscription, once the initial charge is repaid in full to the Fund, any remaining shareholding will be automatically converted to Share Class A.

Please refer to the Deferred Subscription Charge section of the prospectus for further details.
