Manager commentary

» July was volatile but broadly resilient for risk assets. Global equities edged higher, as generally solid corporate earnings and renewed confidence in the profitability of AI-related investment offset concerns about elevated technology valuations, renewed Middle East hostilities and rising energy costs; European shares recorded a fourth consecutive monthly gain, although Asian technology markets were notably weaker. Government bonds came under pressure as the oil shock revived inflation concerns: the Federal Reserve, European Central Bank, Bank of England and Bank of Japan all left policy rates unchanged, but hawkish votes and guidance increased expectations of further tightening, with the US 10-year Treasury yield briefly reaching 4.75% and the 30-year yield 5.25%. Commodities were dominated by energy, as disruption around the Strait of Hormuz lifted Brent crude by 24% and WTI by 21% over the month, while gold gained around 1% despite falling sharply on the final trading day. In currencies, the dollar gave back earlier gains late in July, the euro strengthened modestly, and the yen fell to a near 40-year low before Japanese - and subsequently coordinated US-Japanese - intervention triggered a sharp rebound.

» Against this backdrop, we left manager selection and asset allocation unchanged in the Portfolios.

Deferred Subscription Charge - Class D only

The Fund is permitted to make a charge on the sale of Shares to an investor of 5 per cent of the amount subscribed. The amount of this charge is paid by the Fund at the time of the subscription and is deferred and amortised over a 5-year period. Shareholders of Share Class D see the cost of this charge reflected in a decreased Net Asset Value price of Share Class D.

Should an investor redeem before the 5-year period has elapsed, the Fund is permitted to deduct the remainder of the Deferred Subscription Charge from the redemption proceeds for the benefit of the relevant Fund. The remaining charge will be calculated on a first in, first out basis and pro-rata dependent upon the number of Shares redeemed.

Charges will be applied to the redemption proceeds as below:

» Within one year of initial subscription	5%
» Between 1 & 2 years of initial subscription	4%
» Between 2 & 3 years of initial subscription	3%
» Between 3 & 4 years of initial subscription	2%
» Between 4 & 5 years of initial subscription	1%
» After 5 years of initial subscription	No charge

At the end of the month following the five-year anniversary of the original subscription, once the initial charge is repaid in full to the Fund, any remaining shareholding will be automatically converted to Share Class A.

Please refer to the Deferred Subscription Charge section of the prospectus for further details.
