# Harmony Global Balanced Fund (Class E AUD hedged)

*28 August 2026*

This is a marketing communication for professional advisors only

## Investment objective*

The portfolio will be biased to investments in the United States, but could also hold investments outside this country.

The portfolio aims to provide a balance between capital preservation and capital growth in US dollars with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

## Manager commentary

- We added to gold tactically in June after a period of weakness left the metal appearing oversold on technical indicators. Following a strong rebound, we took partial profits in August, locking in a gain of approximately 8% from our purchase price. While valuations became less compelling in the short term, we retained some exposure given ongoing support from geopolitical uncertainty and diversification demand. We also remain broadly underweight relative to our strategic allocation targets.
- On the manager selection front, we switched from the iShares MSCI Emerging Markets Value Factor ETF to the Neuberger Emerging Market Equity strategy. This was largely a like-for-like trade, as Neuberger employs a valuation-driven stock selection process that provides a similar style exposure to the ETF. Although the fund launched only a few months ago, it is managed by an experienced team we know well and is based on a strategy to which we have previously had exposure. We believe the strategy complements our existing roster of active emerging market equity managers and has the potential to deliver strong risk-adjusted returns over the long term.

Allocations subject to change. *There can be no assurance that the Fund will achieve its investment objective. Please refer to the Prospectus for full details of the Fund, its charges, the investment objective and investment policy. **Performance figures prior to the inception date of the Class E AUD Hedged share have been simulated by applying USDAUD hedging costs to the non-hedged returns of Harmony Global Balanced Fund Class E USD. ***Peer group median comprises two components: 1) between inception date and 30.06.24, the median return of the composite (i) global peers and (ii) local peers, in the ratio 1:2. This weighting methodology is consistent with the "normal" asset allocation of the Fund, with a two-thirds bias towards "home" country assets and currencies; 2) between 01.07.24 to present, the median return of Morningstar EAA USD Moderate Allocation. Peer group median has been adjusted for USDAUD hedging costs and is expressed in AUD. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees in AUD.
