

Harmony Global Balanced Fund (Class E GBP hedged)

27 February 2026

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in the United States, but could also hold investments outside this country.

The portfolio aims to provide a balance between capital preservation and capital growth in US dollars with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Manager commentary

- » February was a challenging month for global equities, as growing concerns around AI-driven disruption weighed heavily on technology and software stocks, sending the S&P 500 down 0.8% and the Nasdaq lower by 3.4%. The Federal Reserve held rates steady at 3.50-3.75%, while the 10-year Treasury yield fell roughly 30 basis points on a flight-to-safety bid. The US Supreme Court struck down IEEPA-based tariffs, though the White House swiftly reimposed levies under alternative legislation, keeping trade uncertainty elevated. International equities continued to outperform the US, with the MSCI World ex-US extending its strong year-to-date lead. Precious metals were volatile, with gold recovering above \$5,000 per ounce on safe-haven demand as US-Iran tensions escalated sharply towards month-end, while oil prices rose on fears of disruption to Strait of Hormuz shipping lanes.
- » Against this backdrop, we left manager selection and asset allocation unchanged in February; however, we prepared for significant changes executed in the early days of March.
