

Harmony Global Balanced Fund (Class E USD)

31 July 2026

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in the United States, but could also hold investments outside this country.

The portfolio aims to provide a balance between capital preservation and capital growth in US dollars with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Manager commentary

- » July was volatile but broadly resilient for risk assets. Global equities edged higher, as generally solid corporate earnings and renewed confidence in the profitability of AI-related investment offset concerns about elevated technology valuations, renewed Middle East hostilities and rising energy costs; European shares recorded a fourth consecutive monthly gain, although Asian technology markets were notably weaker. Government bonds came under pressure as the oil shock revived inflation concerns: the Federal Reserve, European Central Bank, Bank of England and Bank of Japan all left policy rates unchanged, but hawkish votes and guidance increased expectations of further tightening, with the US 10-year Treasury yield briefly reaching 4.75% and the 30-year yield 5.25%. Commodities were dominated by energy, as disruption around the Strait of Hormuz lifted Brent crude by 24% and WTI by 21% over the month, while gold gained around 1% despite falling sharply on the final trading day. In currencies, the dollar gave back earlier gains late in July, the euro strengthened modestly, and the yen fell to a near 40-year low before Japanese - and subsequently coordinated US-Japanese - intervention triggered a sharp rebound.
- » Against this backdrop, we left manager selection and asset allocation unchanged in the Portfolios.

Important Information - All data sourced from Momentum Global Investment Management, J.P. Morgan SE - Luxembourg Branch, Morningstar, Bloomberg Finance L.P. Allocations subject to change. *There can be no assurance that the Fund will achieve its investment objective. Please refer to the Prospectus for full details of the Fund, its charges, the investment objective and investment policy. **Peer group median comprises two components: 1) between inception date and 30.06.24, the median return of the composite (i) global peers and (ii) local peers, in the ratio 1:2. This weighting methodology is consistent with the "normal" asset allocation of the Fund, with a two-thirds bias towards "home" country assets and currencies; 2) between 01.07.24 to present, following the Strategic Asset Allocation changes, the median return of Morningstar EAA USD Moderate Allocation. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees in USD.
