

Harmony Global Balanced Fund (Class E AUD hedged)

30 June 2026

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in the United States, but could also hold investments outside this country.

The portfolio aims to provide a balance between capital preservation and capital growth in US dollars with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Manager commentary

- » In June, we made several adjustments to the Portfolio. We reduced both developed and emerging market equity exposure, taking profits following their strong performance so far this year, and reallocated capital across gold, hedge funds, high-yield bonds, convertible bonds and emerging market debt. The changes are intended to broaden diversification, reduce reliance on equity market returns and improve the Portfolio's resilience across a wider range of market outcomes. Gold and hedge funds provide differentiated sources of return and potential downside protection, while high-yield, convertible and emerging market bonds retain exposure to income, credit and market upside.
- » Overall, the Portfolio has moved toward a more balanced risk profile, but this is not a fully defensive shift: we continue to maintain meaningful participation in growth assets while moderating equity concentration and locking in some recent gains.

Important Information - All data sourced from Momentum Global Investment Management, J.P. Morgan SE - Luxembourg Branch, Morningstar, Bloomberg Finance L.P. Allocations subject to change. *There can be no assurance that the Fund will achieve its investment objective. Please refer to the Prospectus for full details of the Fund, its charges, the investment objective and investment policy. **Performance figures prior to the inception date of the Class E AUD Hedged share have been simulated by applying USDAUD hedging costs to the non-hedged returns of Harmony Global Balanced Fund Class E USD. ***Peer group median comprises two components: 1) between inception date and 30.06.24, the median return of the composite (i) global peers and (ii) local peers, in the ratio 1:2. This weighting methodology is consistent with the "normal" asset allocation of the Fund, with a two-thirds bias towards "home" country assets and currencies; 2) between 01.07.24 to present, the median return of Morningstar EAA USD Moderate Allocation. Peer group median has been adjusted for USDAUD hedging costs and is expressed in AUD. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees in AUD.
