

# Harmony Global Growth Fund (Class J)

30 September 2024

This is a marketing communication for professional advisors only

## Investment objective\*

The portfolio will be biased to investments in the United States, but could also hold investments outside this country.

The investment objective is to provide capital growth in US dollar terms but with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

## Manager commentary

- » In September, markets were all about central banks as the long awaited first cut by the Federal Reserve came. Equities saw a correction in the first week, but mostly recovered ground and ended the month in positive territory. In local currency terms, the US outperformed, Europe was about flat, and UK and Japan were slightly negative. Global bonds ended the month in positive territory, and gold was once again the best performer. Property and infrastructure also delivered strong gains, ahead of global equities. The notable market development was the surprise policy announcement from the People's Bank of China, that with strong monetary and fiscal stimuli spurred an aggressive rally in local equities, just before month end.
- » Against this backdrop, we left the portfolios' asset allocation roughly unchanged. The only significant manager selection change was the exit from the Jupiter Emerging Market Bond fund, as the PM and two key senior members left the team, leaving us with no conviction in the strategy. The proceeds were reinvested in a combination of the HSBC Emerging Market Debt fund and a new investment in a high yield strategy, that will be discussed next month.
