

Harmony Sterling Balanced Fund (Class A-C)

31 December 2025

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in the United Kingdom, but could also hold investments outside this country.

The portfolio aims to provide a balance between capital preservation and capital growth in sterling with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Manager commentary

» In December, we added the Global Evolution Emerging Markets Blended High Conviction Fund to the portfolio, which invests across the full spectrum of emerging market debt through four equal-weight sleeves drawn from the firm's four flagship strategies. The fund combines top-down macro themes with bottom-up country and security selection to identify relative value across hard and local currency sovereign, corporate, and frontier market debt. Supported by a long-tenured team with deep emerging markets expertise, the strategy aims to deliver attractive risk-adjusted returns with yields in the low double digits. We switched into this from the existing passive emerging market debt exposures; hence, we believe this portfolio change to be not only return enhancing (thanks to the higher yield), but also risk reducing (with the increased diversification benefits, and a natural advantage in the case of prolonged US dollar weakness).
