

Harmony Sterling Balanced Fund (Class H)

31 October 2025

This is a marketing communication for professional advisors only

Investment objective*

The portfolio will be biased to investments in the United Kingdom, but could also hold investments outside this country.

The portfolio aims to provide a balance between capital preservation and capital growth in sterling with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

| Specialist financials | 0.4% | | |

Manager commentary

- » Equity markets extended their rally through October, led by AI-linked megacaps that now dominate major indices. Non-US markets also rose, though a stronger dollar compressed USD-based results, and currency swings were the main driver of bond performance despite falling sovereign yields. In the US, softer labour and inflation data paved the way for a rate cut and an announced halt to quantitative tightening, even as the Fed signalled caution about further easing. A year-long US-China trade truce eased tensions by rolling back select tech and tariff restrictions while leaving most duties intact. China's economy remained weak and in deflation, and its equities slipped, whereas Japan rallied on expectations of looser policy under new leadership, despite a sharply weaker yen. The UK advanced on cooling inflation, a softer jobs market, and lower gilt yields, with gains concentrated in financials and global earners. Meanwhile, the AI infrastructure boom intensified with strong cloud results, major partnership deals, and record market-cap milestones, stoking concern about concentration and froth after mixed earnings reactions.
- » Against this backdrop, we made no change to the portfolio, following the high activity from last month.

Portfolio holdings - top 20
