

Harmony Sustainable Growth Fund (Class E AUD)

31 January 2024

This is a marketing communication for professional advisors only

Investment objective*

To provide capital growth in US Dollar terms but with a reduced level of volatility via strategic exposures to a wide range of asset classes. The Fund aims for a better sustainability profile compared to relevant broad market indices for the majority of asset class exposures by integrating ESG (i.e. Environmental, Social and corporate Governance) factors.

The Sub-fund takes sustainability risk and ESG characteristics into account as part of its selection process. In that respect, the Sub-fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. For the assessment, areas like corporate strategy, corporate governance, transparency and the product and service range of a company are taken into account. More information can be found in the Prospectus.

Manager commentary

- » Markets began to consolidate in January and returns ended the month in a more mixed fashion, compared to the '(almost) everything rally' seen in Q4 2023. Global developed and US equities both continued their momentum to reach all-time highs, returning 1.2% and 1.7% respectively. Equity markets in Asia continued to show limited signs of agreement, with Japan posting a 7.8% return, while further challenges in China impacted Emerging Asia, falling 5.2%. UK equities ended the month down 1% after some varied data prints, while European equities outperformed, returning 1.9%. After the bond market rally in December, markets took a step back with global bonds declining 1.3%, following a re-assessment of 2024 interest rate projections. Despite a shaky start, credit markets ended the month undisturbed with a slight 0.2% decline in investment grade. In commodities, a tumultuous month geopolitically, led to a 6.1% rise in oil.
- » Against this backdrop, we left manager selection and asset allocation unchanged in the portfolio, after a very active last month of the year.
